The coolie trade forms the great staple of business at this peaceful COMPANY'S ESTABLISHMENTS at the above that its existence would scarcely be suspected, but that from time to time the most fearful revelations come to the surface with regard to it. Such has been the case with respect to the rising on board the Nouvelle Penelope, which has of late attracted so much attention. Here a rude break has been made upon the peaceful settlement of Macao. It was first startled by the terrible news of the massacre which had been committed on board massacre which and been committed on board were fined for cutting and destroying young the ship which only a little time before was trees near the Race Course and Stanley Road and good Government of the said Colony of the recovered breath, before the men who had dine's employ, pleaded that he only cut a small kong did not involve the rendition of criminals. It proved; but of this there can be no certainty. when the way in which Chinese justice is administered is taken into consideration But how it could happen that the Governor of Macao should permit the execution to take place under the very eyes of the inhabitants, it is impossible to conceive. The idea apparently was to exert an intimidating effect upon other coolies, and so to prevent future revolts. But surely if this end is desirable, some other means might have been taken to attain it. Our correspondent K. C. B., who is evidently terms of reprobation of the action that has been taken, and sets forth in very plain terms the indignation of the respectable inhabitants of Macao at the countenance which it appears the Government is now giving to the coolie AUGUSTINE HEARD, Esq., (Mesers. According to our correspondent's account, it seems that the means adopted at present are altogether inadequate; because the coolies who declare that they do not ship of their free will are followed back to the country by the greedy brokers, and are forced away by the "Companies Ordinance, 1865," and its the petty Mandarins, who are bribed to do Shares ullotted, will be prepared to accept Riaks | so. The cause of all this is undoubtedly to be found in the corruption of held that this fact clears foreigners connected with the traffic from resposibility. Such might be the case if the facts were not known; but they are now notorious, and nobody can take away a number of coolies under contracts without having the strongest reason to believe that at least a considerable number

HONGKONG AND SHANGHAI BANKING Eleventh report of the Court of Directors to the Ordinary Yearly General Meeting o Shareholders, to be held at the City Hall Hongkong, on Wednesday, the 15th February

To the Proprietors of the Hongkung an Shanghui Banking Corporation. Gentlemen, The Directors have now to submit to you a general statement of the affairs of the Corporation, and Bulance Sheet for the half-year ending on 31st December last. The net profits for that period, including \$99,398 33 brought forward from last account after paying all charges and deducting interest paid and due, amount to \$465,968.82, of which

after taking out Bebate on Bills not yet due. and Remuneration to Directors, there remains for appropriation \$451,141.46. From this sum the Directors recommend the distribution of a Dividend of \$5 per share on the Paid-up shares, and of \$3 per share on the New shares, being equivalent to Four per cent. or any of the other coolies. The evidence went for the half-year; this will absorb \$160,000, to show that this man was one of those who and of the balance, the Directors propose recomplained of being kidnapped. Indeed, there | taining \$268,587.13 to meet eventual Tisses on

If this appropriation of profits be confirmed under compulsion: that if there was any Govby the Meeting; the Shareholders will have received as Dividend for the year 1870 the same of \$370,000, (Ten per cent. on the the paid-up Capital), all bad and doubtful assets will be On LONDON,amply provided for, and undivided profits of

\$22,554 33 will be carried forward. The Directors regret that the depreciation on previous valuations of the Bank's securities. together with the position of some transactions entered into during the air months under review, compel them to recommend the retention On NEW YORK of such a large sum as \$268,587.13 out of the half year's earnings and, in consequence, to reduce the usual dividend of six per cent. for the half-year to four per cent.; but they deem it best for the Shareholders to make full provision for all doubtful outstandings, and at the same time to leave the Reserve Fund intact. Although the Dividend for the six months is not so favourable for Shareholders as in previous half-years, still, the Directors think the general result is extremely satisfactory, if Proprietors will bear in mind the stagnation in trade, the depreciation of sconfities and the unremmerative turn taken by Exchanges in consequence of the Franco-German war. The Proprietors may be congratulated on the strong position held by the Bank at all places where its business is carried on. Its resources have increased materially during the past year

THE SNAPPED CABLES.

(From the New York World, December 12th.) The ocean cables recently injured are the Atlantic cables of 1865 and 1886. It will be remembered that immediately after the discovery of the interruption at some distance from the Newfoundland shore, the steamer Robert Lowe was sent out to grapple the injured cable to repair it. Almost simultaneously with what was then supposed was the time of the grappling, the other cable beased working. It was conjectured that this was caused by the carelessness of the cogineers of the repairing expedition grappling the wrong cable. Since then, however, it has been discovered that this was not so. The weather permitting operations on one day, the Lows raised one section of the cable and communicated with the shore. The officers stated that on the day the second cable was broken no attempt had been made to grapple at all. It is, therefore, conjectured that a similar cause injured both cables-pro-Tong-a-ship, reading glass; 2, Wai-a-ling, bably abrasion by the rocks. On a former occasion the cubic was crushed by an iceberg. A portion of the shattered cable is now shown in the New York office as an illustration of the perils of those wires which go down into the sea in gutta-perch bathing dresses. The armour voluted through its shield so as to render it useless as an electric conductor.
